TechCorp offers two comprehensive medical insurance plans to meet the diverse needs of our employees and their families. Both plans provide extensive coverage but differ in structure, cost, and flexibility.

PPO Plan Overview

What is a PPO?

A Preferred Provider Organization (PPO) plan offers maximum flexibility in choosing healthcare providers. You can see any doctor or specialist without a referral, both in-network and out-of-network, though you'll pay less when you use in-network providers.

Key Features

Flexibility

- No primary care physician (PCP) required
- No referrals needed to see specialists
- Access to nationwide network of providers
- Out-of-network coverage available (at higher cost)

Coverage Summary

Service	In-Network	Out-of-Network
Annual Deductible (Individual/Family)	$500 / $1,000	$1,500 / $3,000
Out-of-Pocket Max (Individual/Family)	$3,000 / $6,000	$6,000 / $12,000
Primary Care Visit	$25 copay	30% coinsurance

Employee + Spouse	$180	$720 (80%)
Employee + Child(ren)	$150	$600 (80%)
Family	$225	$975 (81%)

Best For

The PPO plan may be right for you if you:

- Want flexibility in choosing doctors and hospitals
- Don't want to deal with referrals to see specialists
- Travel frequently and need nationwide coverage
- Prefer paying slightly higher premiums for lower out-of-pocket costs

---

HMO Plan Overview

What is an HMO?

A Health Maintenance Organization (HMO) plan provides comprehensive coverage at a lower cost by requiring you to use a network of providers. You'll choose a primary care physician (PCP) who coordinates your care and provides referrals to specialists.

Key Features

Coordinated Care

- Primary care physician (PCP) manages your healthcare
- Referrals required for specialist visits
- Lower premiums and out-of-pocket costs
- No coverage for out-of-network care (except emergencies)

Annual Deductible (Individual/Family)	$250 / $500
Out-of-Pocket Max (Individual/Family)	$2,000 / $4,000
Primary Care Visit	$15 copay
Specialist Visit	$30 copay (with referral)
Emergency Room	$100 copay
Preventive Care	100% covered
Generic Prescriptions	$5 copay

Service	In-Network
Brand Prescriptions	$25 copay

Monthly Premium Costs

Coverage Level	Employee Cost	Company Contribution

3. 401(k) Retirement Plan

Planning for retirement is one of the most important financial steps you can take. TechCorp's 401(k) plan helps you build a secure financial future with generous company matching and flexible investment options.

Plan Overview

What is a 401(k)?

A 401(k) is a retirement savings plan that allows you to contribute a portion of your salary before taxes are taken out. Your contributions grow tax-deferred until withdrawal, and TechCorp matches a portion of your contributions.

Key Benefits

Tax Advantages

- Pre-tax contributions reduce your current taxable income
- Tax-deferred growth - no taxes until withdrawal
- Roth 401(k) option available for after-tax contributions

Company Match

- TechCorp matches 100% of the first 6% you contribute
- Immediate vesting - the match is yours from day one

Investment Control

- Choose from diverse investment options
- Adjust contributions and investments anytime

Company Match Explained

How the Match Works

TechCorp provides a dollar-for-dollar match on your contributions up to 6% of your salary.

Example Calculations:

Annual Salary: $60,000

Your Contribution	Company Match	Total Annual Contribution
3% ($1,800)	3% ($1,800)	$3,600
6% ($3,600)	6% ($3,600)	$7,200
10% ($6,000)	6% ($3,600)	$9,600

Annual Salary: $100,000

Your Contribution	Company Match	Total Annual Contribution
3% ($3,000)	3% ($3,000)	$6,000
6% ($6,000)	6% ($6,000)	$12,000

Your Contribution	Company Match	Total Annual Contribution
10% ($10,000)	6% ($6,000)	$16,000

Maximizing Your Match

To receive the full company match:

- Contribute at least 6% of your salary
- Maintain contributions throughout the year

Important: Contributing less than 6% means you're leaving free money on the table!
